Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed 09-20-04 has been entered. Accordingly claims 40, 47-51, 53-56 and 57 are pending.

Information Disclosure Statement

2. The information disclosure statements filed 03-24-04, 05-10-04 and 11-12-04 have been considered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 40, 47-51, and 53-57 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support in the specification for the claim limitation "wherein said buffer memory has a data storing capacity..." (claim 40, lines 12-14) in the application as filed. A shift register 337 in figure 6A of the instant application is a data shift register, which function is to shift data from its input to output. The shift register 337 does not have a data storing capacity enabling the receiving of a unit of a data length equal to the

Art Unit: 2827

data length of the data to be stored at one time of the program operation as claimed in claims 40 and 51. Claims 47-50 and 53-57 are rejected because in their dependency they include the limitations of a base claims 40 and 51, respectively.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koo (U.S. Patent 5,687,354) teaches a buffer memory being a random access memory for reading from or writing data to a nonvolatile memory.

6. The Request for Declaration of Interference filed 09-20-04 is denied because the new claims 40, 47-51, and 53-57 have no support for the claimed subject matter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son L. Mai whose telephone number is 571-272-1786. The examiner can normally be reached on 8am to 6pm.
